

1. LIGHTING TO INSIDE FACE OF GUTTER

Light-tec Gutter Lighting

Inside face gutter lighting is our most requested lighting option

Louvretec's new reversible strip gutter lighting extrusion provides a lighting option to the inside face of the gutter.

The continuous LED Pure Flow strip fits to the top inside face of the gutter, providing a warm diffused light shining directly onto the underside of the opening roof blades.

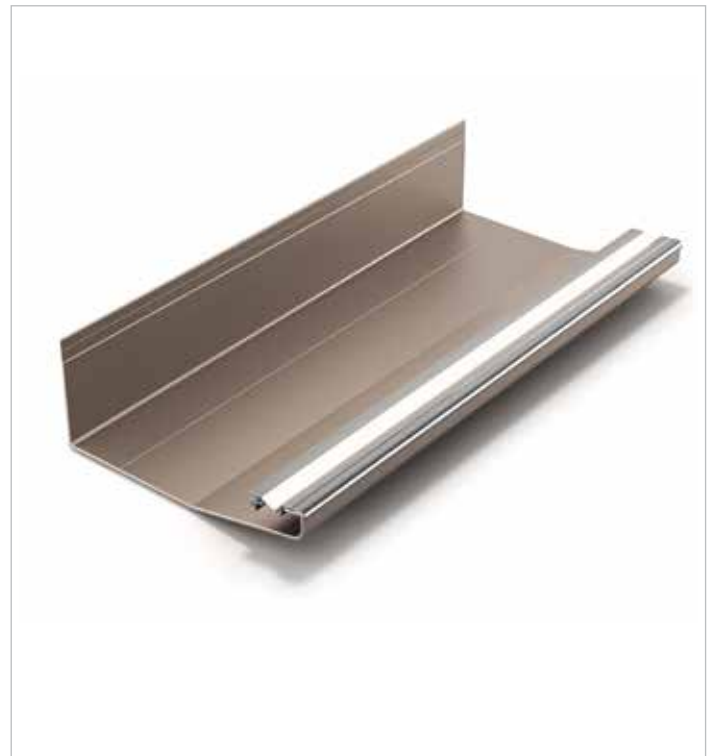

Available in Warm white, fully dimmable.

DOT FREE LINEAR FOR PERFECT COLOUR CONSISTENCY

FLEXIBLE WITH A WIDER LIGHTING AREA
