

OVERHEAD RECTANGULAR PANELS

OVERHEAD RAKING PANEL

FULL HEIGHT FIXED PANEL

## 2. SLIDETEC FIXED PANELS GLAZING SYSTEM

Fixed glass panels to compliment Slidetec Doors & Windows

Slidetec Fixed Panels are designed to compliment the Slidetec Sliding Door & Window system.

Two typical applications

### 1. Fixed overhead panels

If the sliding panel is over height and exceeds design limitations, a suitably sized fixed overhead panel can be fitted.

Fixed overhead panels can also be used on pitched roof frames to square up the opening to allow for a sliding panel to be installed under.

### 2. Full height fixed panels

Ideal to use to provide light and shelter as a full height fixed panel when sliding access is not required.

## TYPICAL DETAILS: OVERHEAD RECTANGULAR & RAKING PANELS

### PANEL DETAILS

Top fixed panels to reduce the height of an over height opening.
